Assignments	
Major Assignments and Grade Distribution	MS Office Assignment: Students will take a pretest for each section of MS Office software. Based on your performance on the Pretest, a customized lesson plan will be created for you to complete each assignment. Each section will also consist of a Post-test to test your understanding of the assignment. You are given 5 attempts at each assignment. MS Office Projects: Each section of MS Office (Word, Excel, PowerPoint) will have a Project to show your comprehension of each software. Management Information Systems Knowledge: You will complete sections that will provide you with a variety of topics on information systems. Each section will be interactive requiring you to answer a few questions within each chapter. Cybersecurity Information: You will learn about the exciting new degree program here at JHJ in cybersecurity. This is a very special program initiated through the White House and President Biden. IBM has partnered with 20 HBCUs to create cybersecurity programs to fill the unmet and increasing needs for cybersecurity specialists.
	IBM Project: This project will consist of you completing a module from IBM on a cybersecurity topic. The module takes approximately 9 hours of watching videos and answering questions to complete. When you complete this module, you will earn an IBM Blue Cybersecurity Badge. This automatically shows on your Linked-in Page and is great to include on a resume. When you complete the course submit your certificate on Blackboard. You can attempt the module multiple times. No matter what grade you make on the certificate exam...if you receive the IBM Badge certificate you will receive 100% credit for the assignment. If not you will receive the grade you received on the IBM results.
Essential Policies	
Attendance Policy	The class is online, you are expected to login in for class weekly to complete your assignments.
Assignment Policies	Late assignments will receive a 10 point deduction.
Academic Misconduct Policy	Engaging in any form of academic dishonesty with respect to examinations, course assignments, research projects, grades, and/or academic records, including, but not limited to plagiarism, cheating on exams, changing grades, and taking another student's exam. (COC 6.2)
ADA Policy	The ADA of 1990 provides civil rights protection for individual with disabilities. It guarantees equal opportunities for "qualified individuals" with disabilities in all public facilities, educational programs, activities, services and benefits. The ADA upholds and maintains compliance standards to ensure institutions of higher education policies, procedures and practices are non-discriminatory. Students needing academic accommodations should contact the Office of Disability Services at 713-313-7691.

Course Outline and Assignments

Week	Assignment	Textbook Activity	Weekly Assignment	Points	Due Date
Week 1 – 8/26/24	1. Familiarize yourself with the syllabus and assignment due dates. 2. Discussion Board: a. Introduce yourself to the class & respond to at least two other classmates. If Microsoft 365 Office Suites is not available on your computer, obtain TSU free access to Microsoft 365 Office Suites. Register for SIMnet	Course Overview SIMnet Link - Blackboard	Introductions - Discussion Participation in the Discussion Board will determine your initial attendance in this course. ---	---	9/8/24
